Are you a resident of Louisiana?

Did you start smoking before Sept. 1st, 1988?

If you are a Louisiana resident who started smoking cigarettes before September 1, 1988, Smoking Cessation Trust offers FREE medications, group and individual counseling, and quit line coaching to help you quit for good. Do it for yourself, DO it for those you love. It’s never too late to quit. Especially when it’s FREE!

NICOTINE REPLACEMENT THERAPY (NRT)

Smoking Cessation Trust Management Services (SCTMS) has contracted with US Script®, a major pharmacy network, to provide specific smoking cessation medications and nicotine replacement therapies (NRTs), such as Nicorette, to you at no cost. In order for the cost of approved medications to be covered by the Program, you must utilize a pharmacy that is included in the US Script® Network. If you choose to utilize a pharmacy outside of the US Script® Network for smoking cessation medications, those medications will not be eligible for reimbursement.

Attention:
The Smoking Cessation Program only covers payment for the medications listed above and only within the annual limits described. Other medications may be prescribed by your physician to treat tobacco dependence/use and will not be payable under the program.

70% of smokers want to quit, but only 7% are successful on their first try.
WHAT IS THE TRUST?

Funded by the 2010 Court of Appeal judgment, affirming the decision in the Scott v. American Tobacco Co., et al class action lawsuit, the Smoking Cessation Trust was created to provide smoking cessation programs for Louisiana residents.

The Trust has three objectives:

• To locate and certify Louisiana residents who are part of the Scott Class (Class Members);
• To make available to all approved Class Members the four smoking cessation services, primarily through the existing clinical health care delivery system in Louisiana; and
• To give Class Members available smoking cessation services they need to quit smoking and remove any challenges that would hinder success.

WHAT DOES THE TRUST DO?

• Arrange for the highest level of smoking cessation services possible to the greatest number of Class Members
• Increase the number of people who quit in Louisiana
• Make significant, positive contributions to improving Louisiana’s smoking cessation services for Class Members

SERVICES PROVIDED AT NO COST TO YOU*

• Telephone coaching and support
• Physician visits and cessation services
• Group and Individual counseling
• Smoking cessation medications prescribed by your physician
