PROTECT YOURSELF FROM THE FLU

Flu Shot

This year, getting a flu shot is more important than ever. Here's what you need to know to help you and your loved ones stay safe and healthy this flu season.

THE BEST WAY TO PREVENT THE FLU IS TO GET THE FLU SHOT.

The flu is a serious illness – getting the flu shot helps lower the number of hospital visits and deaths. If you get your flu shot, you'll help keep yourself from getting sick and the flu from spreading to others. The flu spreads in the fall and winter, and the virus reaches its peak October through February.

You can get a flu shot at your doctor's office, local pharmacy, and clinics. These locations have special measures in place to help keep you safe. When you go to get your flu shot, don't forget to wear your mask.

VANTAGE COVERS FLU SHOTS.

Vantage covers one flu shot per flu season. You pay nothing for a flu shot when you get your shot from an in-network provider.

SOME PEOPLE HAVE A HIGHER RISK OF GETTING SICK FROM THE FLU.

People who are 65 and older are at high risk of having serious health complications from the flu. Young children, pregnant women, and people with certain health conditions are also at high risk.

THERE ARE PREVENTIVE MEASURES YOU CAN TAKE TO AVOID THE FLU.

- › Wash your hands
- › Avoid touching your eyes, nose, and mouth
- › Stay home when you are sick
- › Clean frequently touched surfaces
